Amendments to the Specification

Please replace paragraph [0037] beginning at page 17, line 17, with the following replacement paragraph:

[0037] Continuing to refer to FIG. 3, the inventive filter circuit includes a logic circuit (e.g., adder 220) configured to mathematically combine outputs of the phase alignment block 200 and the filter block 210. It is well within the abilities of one skilled in the art to design and use logic configured to provide a mathematically equivalent outcome to that provided by adder 220. When
